

Drew Woodmansee *Full-Stack Developer*

eesnamdoow@gmail.com | (760) 547-4638 | [Developer Portfolio](#)

EDUCATION

Devmountain, Coding Bootcamp *Graduated April 2021* • Web Development Program

SKILLS

Typescript • React • Github • NodeJs • React Native • SQL • CSS • NextJS • React Native • Fluent Spanish • Solidity

PROFESSIONAL EXPERIENCE

Xomly | Sandy, UT *April 2021 - Present Software Engineer*

DEBT DApp

NextJS | Rainbow Kit | Solidity | Wagmi | Recharts | React Table

- Developed a fully functional DApp using Wagmi and Rainbow Kit using modern web technologies to enhance user engagement and accessibility.
- Collaborated closely with a web designer to create a visually appealing and user-friendly front-end interface for the DApp.
- Implemented smart contracts on the BNB chain using Solidity to facilitate trustless transactions and automate processes.

DEBT Box Web App

React | NextJS | ChakraUI | React Query | TypeScript | Prisma

- Created a Front-end application from scratch using NextJS and all its features (server-side rendering, dynamic routing)
- Created backend endpoints, using REST API to query SQL Database with Prisma and returned formatted data to the front end with error handling
- Created aesthetically pleasing, reusable and customizable components using CSS and Chakra UI.
- Rewrote all data fetching functions on the front end to work using Tanstack Query after learning it in my free time to create a more efficient user experience

DEBT Box Marketing Website

React | NextJS | React Bootstrap | TypeScript

- Created a Static marketing website using NextJS and all its features (server-side rendering, dynamic routing)
- Worked closely with our graphic designer to create beautiful web pages full with necessary information
- Optimized the website using NextJS GetStaticProps to load and render static pages at lightning fast speed

Xomly Collateral

React Native | Redux Saga | iOS Simulator | React Native Stylesheet | React Navigation

- Oversaw a design overhaul by redesigning every screen and component, creating a modern mobile app.
- Optimized the app for both iPhone and Android.
- Created sleek looking animations from scratch using the React Native Animated API.
- Implemented new endpoints throughout the app using Redux Sagas and Selectors.
